### Lake Region Healthcare a Leader in Wellness

By law, each non-profit healthcare organization is required to conduct a community health assessment every 3 years and for Public Health organizations every 5 years. PS4H has the privilege of working with several healthcare organizations in this process of developing recommendations from the community assessments.

Lake Region Healthcare in Fergus Falls has embraced the process while moving forward with several preventative health initiatives to help support improved health of those they serve.

### Dental Offices Take Steps to Address Tobacco Use Among Patients

Dental hygienists and dental offices are seldom thought of as a setting where life and death decisions are made. But every time a dental hygienist or dentist asks a patient about his or her tobacco use, they are taking the first step towards a potential life-saving moment. [Read more](#)
